RESTORATION PROCESS

OUR PROCESS

Our team of highly skilled automotive engineers, remove every single body panel, nut and bolt throughout the entire Defender, down to the bare chassis. All of the parts we use in our restorations are of the very highest quality.

Every TATC restoration benefits from:

- Expertly sourced quality donor vehicle
- Donor fully dismantled
- Total Chassis Restoration & Coating
- Rebuilt Front & Rear Axles
- New Suspension & Brakes
- Remanufactured Engine & Gearbox
- All External Panels Replaced or Restored
- Full External Re-Paint
- All Wiring Looms fully restored
- New Interior Seating & Trim
- Fitment of Client Options
- Full Test Drive & Pre Delivery Checklist
